Professional Experience

FRONT-END DEVELOPER | FREELANCE | JAN-2022 - PRESENT

- Working as freelance developer for different customers, developing personal, and non-personal web based projects. This has given me the opportunity to improve my organization, the ability to better manage my time, as well as the ability to study and solve problems in a self-taught way. Mostly using Javascript/Typescript, React, Redux, Firebase, Material UI, Tailwind-CSS, Bootstrap. Such as e-commerce for selling electronics and sensors devices, and income-expense tracker for personal finance.

AUTOMATION SOFTWARE DEVELOPER | AITEC-TERNIUM | JAN-2020 – DEC-2021

- Working as PLC software developer as part of the engineering team. My main tasks was about to create scripts and code for control process, using different technologies. Also participate in the N2 engineering team developing C# applications for the plant, and web based applications for internal company process to handle employees hours and payment administration.

WEB DEVELOPER | ATI | JUN-2018 – DEC-2019

- Working as web developer for an automation and telecommunications technologies company, providing web based applications for different clients using mostly Javascript/JQuery and MySQL as main technology stack. Such as Switch traffic app tracker for electrical substations, and API to retrieve data about interuptors position inside the electrical substation area.

Education

AUTOMATION ENGINEER | JUN-2017 | TECHNOLOGICAL UNIVERSITY OF HAVANA

INFORMATICS TECHNICIAN IN COMPUTER SCIENCE | MAY-2010 | IPI: PABLO DE LA TORRIENTE BRAU.
